

TB31

Medium (to large) size refrigerator for intensive use. Energy saver, silent, portable. With Secop compressor, specially designed for marine use and many other applications.

495,00€

TB41

550,00€

TB51

595,00€

Medium (to large) size refrigerator for intensive use with dual voltage (AC/DC) and Secop BD 1.4F MICRO FSD compressor which makes it ideal for marine use and many other applications. The ECO mode and three levels of voltage protection prevent the battery from discharging completely.

TB26

550,00€

Small refrigerator for intensive use. Energy saver, silent, portable. Box designed using *monocoque technology* which offers high insulation.
